Built in an immense pine forest in front of the white sand beach in Pals, this is the oldest course on the Costa Brava and one of the best in the country. The course has the ability to delight all players, from novices to experts. Of special note is the respect for nature that both the designer and the promoters demon-

strated from the beginning. With the hosting of the Spanish Open in 1972, Golf de Pals became the venue for the first tournament of the PGA European Tour which was followed by numerous amateur and professional championships. The course offers a golf school, equipment rental, and is close to a wide range of accommodation options.
